PLANNING YOUR BEDROOM

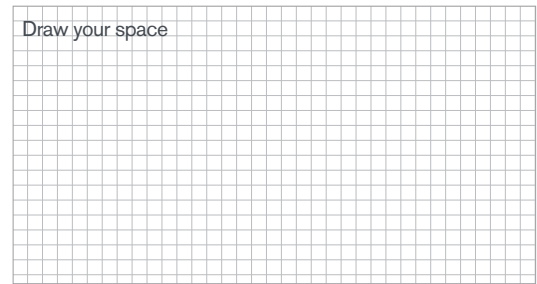

HINGE COLLECTION

STEP 1

Measure your space

Ensure you are fully equipped to start planning. Measure your space wall to wall, including ceiling heights. Remember to note down things like:

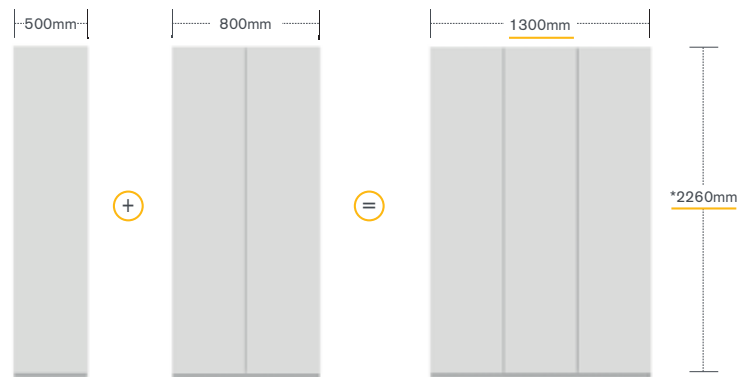

- ✓ Sockets
- ✓ Switches
- ✓ Window ledges
- ✓ Doors
- ✓ Radiators

STEP 2

Create a wardrobe run

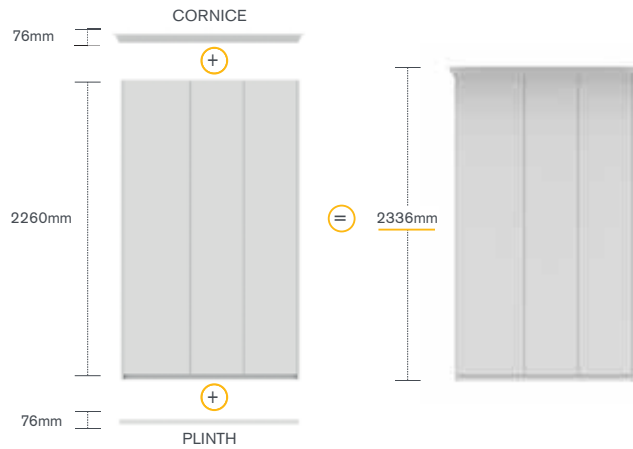

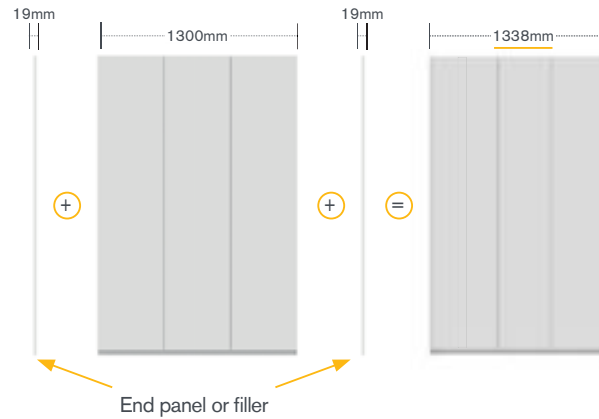

Get an idea of the wardrobe you want by adding combinations together.

STEP 3

Add end panels/fillers or posts.

Depending on whether your design is wall to wall or open ended, you will need to add either an end panel or a custom fit plinth as a filler to cover the linen coloured cabinet.

STEP 4

Add cornice and plinth

You will always need to use a length of plinth to cover the structural base of the wardrobe and depending on whether your design has the space, you can either add a cornice or an infill to ceiling, to finish off the wardrobe.

STEP 5

Add your internals

We have multiple internal storage options for our wardrobes. You can choose from pre-determined bundles or create and design your own, depending on your storage needs.

For the full internals section please see page 119.

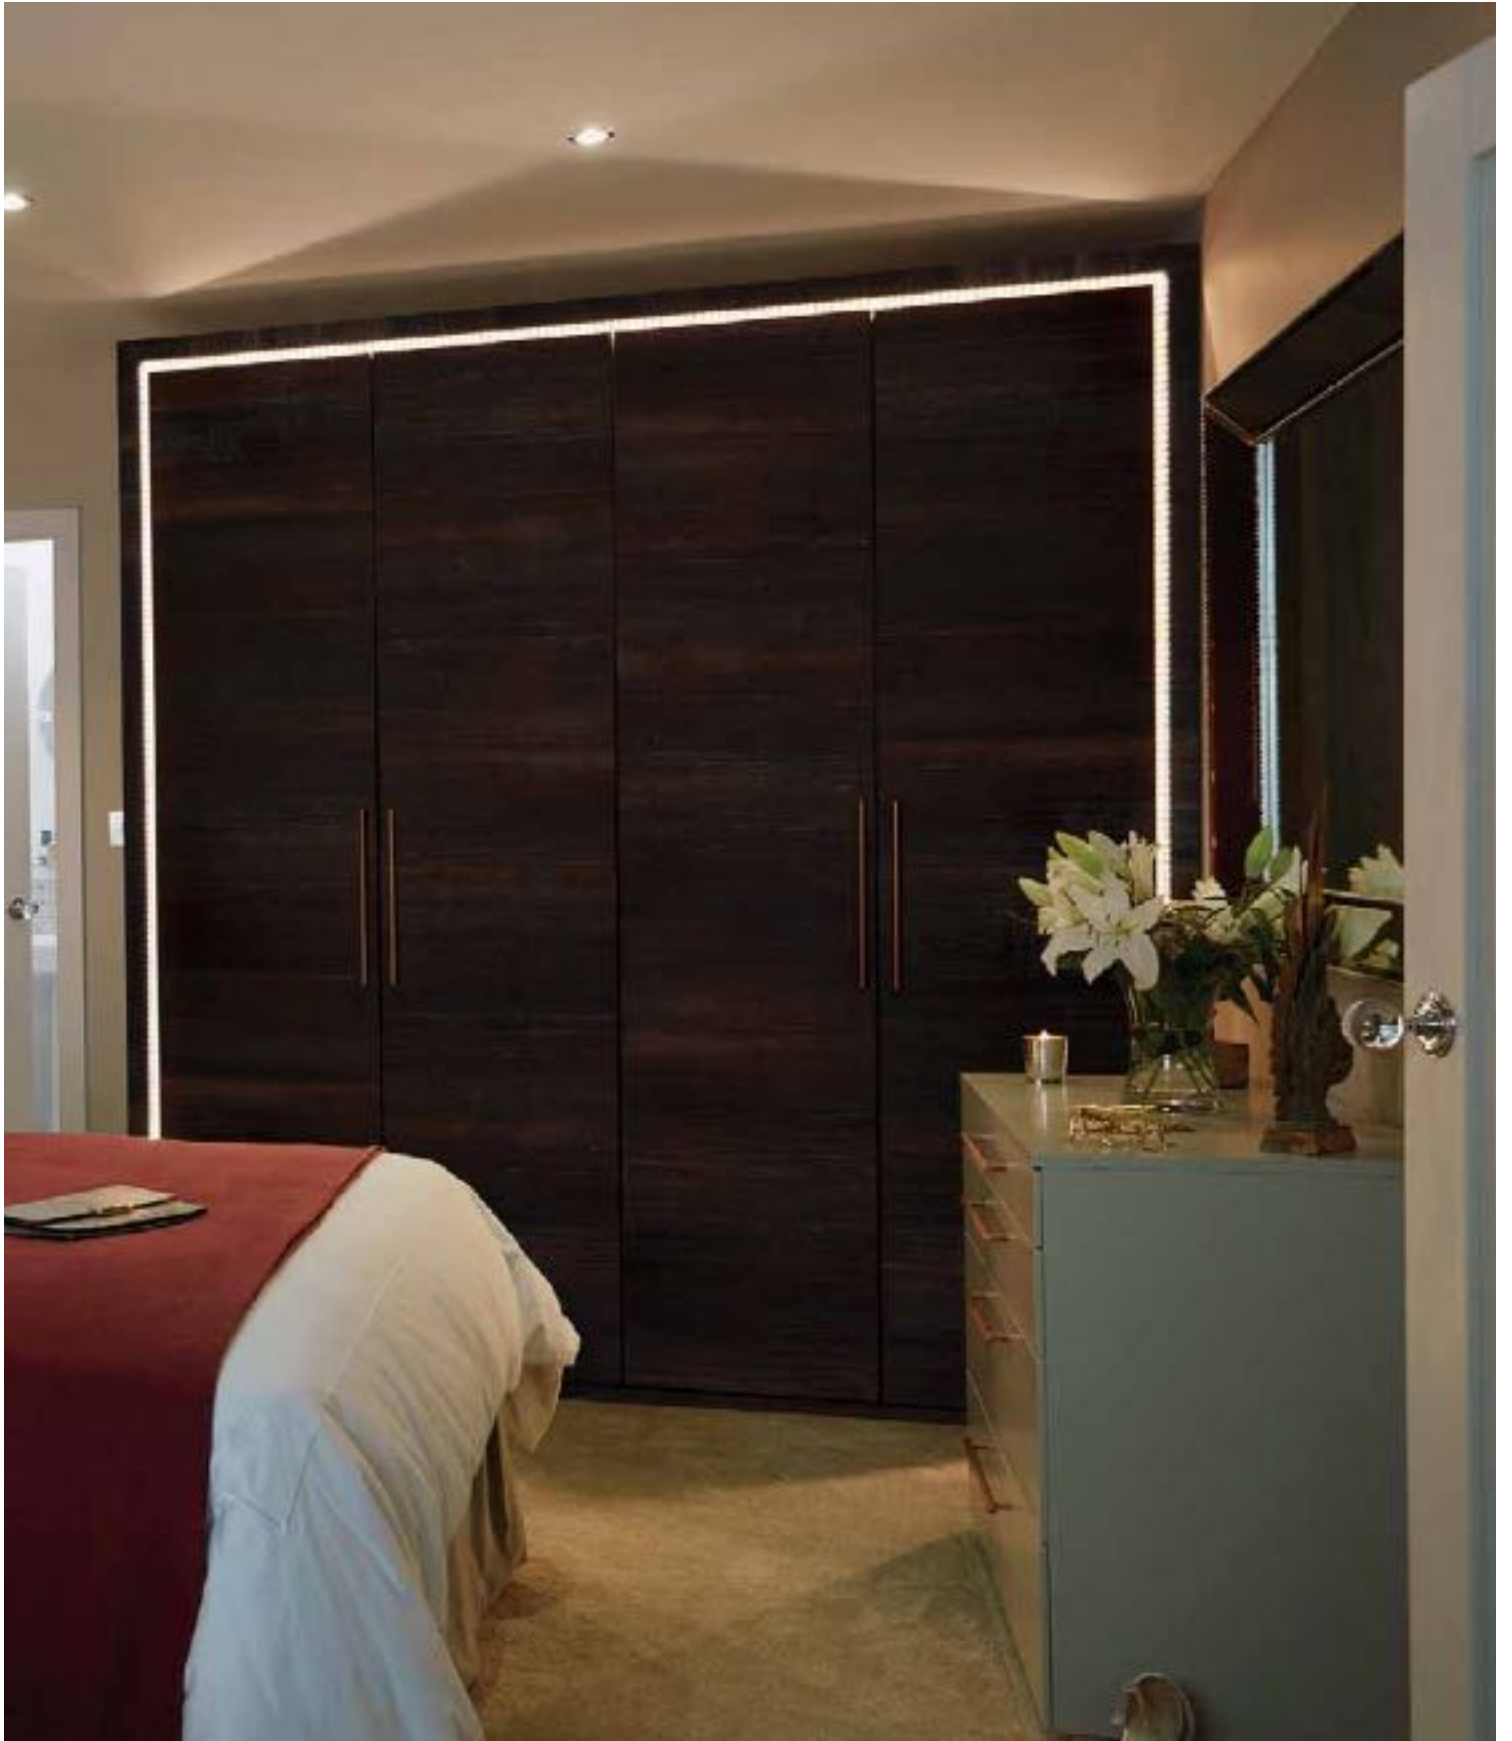

THE MADE-TO-MEASURE COLLECTION

END PANELS AND LINERS

In a wall to wall wardrobe we always recommend using 4 x liners to create a finished edge for the doors to run into. These also help to disguise imperfections where walls, floors and ceilings are uneven.

End panels are great to use if you don't have a wall to wall space, or to reduce the height left at the top of the wardrobe in instances with high ceilings.
